National Elite Performer

ACE is our definition of an exceptional brood cow. She's excelled in creating daughters who have high production, high type and high components. If you looked up brood cow, Gold Medal Dam and Dam of Merit....maybe ACE would pop up in the dictionary.

Her dam, Brooks Apic-ET EX-92 DOM (Epic) is due to calve soon and has over 300,000 pounds of milk!

**All of these daughters have already calved three times, all are Excellent in the mammary and scored Excellent too!
Four of the Deltas went 2E at first opportunity.**

HER DAUGHTERS BY DELTA:

Ever-Green-View Ayla-ET EX-92 EEVEE

Ace's daughters boast solid numbers on PTA Milk, components and Productive Life while retaining Type, Udder Composite and Feet and Leg Composite numbers that any dairy producer would appreciate. Embryo sales, especially internationally, make up a large portion of our genetics sales. We have embryos exported across the world from our high producing and high type cow families. EU- and China-certified.
